Ward A	Ahmed	"Knowmadic" Ali		✓	
Ward A	James	Gault		✓	I believe that students need as much information as possible, and that we do need to encourage parents and families to have open discussions with students. it is also important for information to be taught in an environment where all beliefs are accepted without political or third party interference for a balanced education Alberta Pro-Choice note: see candidates expanded comments for exact wording. Would allow anti-choice for educational "balance".
Ward A	Joseph	Luri		✓	I pledge to support the above points marked.
Ward C	Shelagh	Dunn		✓	
Ward D	Jeff	Behrens		✓	
Ward D	Trisha	Estabrooks		✓	Thank you for doing this pledge
Ward D	Kevin	O'Connor		✓	"Yes, I support all of the above"
Ward E	Sam	Filice		✓	NO question in my mind that the more knowledge youth have,the better decisions they will make!
Ward E	Ken	Gibson	incumbent	✓	Sexual health education must use age-appropriate teaching methods and materials. Parents decide whether their child participates in the program vs specific presentations. Schools to let parents know in advance in order for parents to make decision. No academic penalty for not participating.
Ward F	Michael	Janz	incumbent	✓	Comments: Research is very clear that the best way to stop unwanted pregnancies, infections, as well as negative health outcomes is through medically accurate, inclusive, sexual health education. My voting record on these issues has clearly been supportive. As a parent, I want our schools to teach the facts, and I encourage families to have honest and open conversations about their own values.
